Nominate an outstanding hematologist for an ASH Honoric Award

Nominees of all nationalities and all countries of residence are eligible.

hematology.org/awards

ASH has Honoric Award Advisors who are available to help you better understand the nomination process and shape an effective nomination. If you are interested in speaking with an advisor, please email awards@hematology.org

With its most prestigious awards, ASH honors significant contributions to the field of hematology.

Through a series of career achievement and mentorship awards, the Society recognizes individuals who have made significant contributions to the understanding and treatment of hematologic diseases and who have dedicated their careers to nurturing the growth of future scholars and clinicians.

More than 170 individuals honored since 1970.

Honoring significant contributions to the field by outstanding hematologists

Wallace H. Coulter Award for Lifetime Achievement in Hematology

Wallace H. Coulter was a prolific inventor, innovator, and entrepreneur. His commitment to the field pioneered the development of flow cytometry, defined particle characterization, and made automated hematology possible, thus revolutionizing laboratory medicine. The Coulter counter led to major breakthroughs in science, medicine, and industry.

This award, in his name, recognizes an individual who has demonstrated a lasting commitment to the field of hematology through outstanding contributions to education, research, and practice.

William Dameshek Prize

The William Dameshek Prize, named for the late William Dameshek, MD, a past president of ASH and the original editor of *Blood*, recognizes an early- or mid-career individual who has made recent outstanding contribution to the field of hematology.

Henry M. Stratton Medal

The Henry M. Stratton Medal is named after the late Henry Maurice Stratton, co-founder of Grune and Stratton, the medical publishing house that first published *Blood*. The prize honors two senior investigators whose contributions to hematology in both basic and clinical/translational research are well recognized and have taken place over a period of several years.

E. Donall Thomas Lecture and Prize

This lectureship and prize was created in 1992 and named after the late Nobel Prize laureate and past president of ASH E. Donall Thomas, MD. The E. Donall Thomas Lecture and Prize recognizes an early- or mid-career individual who has made a recent outstanding contribution to the field of hematology.

ASH Award for Leadership in Promoting Diversity

This award honors one individual who has demonstrated extraordinary commitment to diversity and inclusion in the field of hematology. It recognizes a hematologist who has supported the development of an inclusive hematology workforce, has encouraged the career development of underrepresented minority trainees, has demonstrated commitment to inclusiveness in contributions to the mission of ASH, or has made accomplishments that aim to eliminate health disparities in the care of hematology patients.

Ernest Beutler Lecture and Prize

The Ernest Beutler Lecture and Prize, named for the late Ernest Beutler, MD, past president of ASH and physician-scientist for more than 50 years, is a two-part lectureship that recognizes major advances related to a single topic. This award honors two individuals, one who has enabled advances in basic science and another for achievements in clinical/translational research.

ASH Mentor Award

The ASH Mentor Award was established to recognize hematologists who have excelled in mentoring trainees and colleagues. Each year, the Society recognizes two outstanding mentors drawn from the areas of basic science, clinical investigation, education, or clinical/ community care who have had a significant, positive impact on their mentees' careers and, through their mentees, have advanced research and patient care in the field of hematology.

Award winners are formally recognized at a special ceremony at the ASH annual meeting in December.

 Both nominees and nominators for this award must be ASH members.
