Dear Colleague,

The Society of Toxicologic Pathology (STP) is seeking to broaden its membership by reaching out to scientists and students (veterinary/residents/graduate) involved or interested in safety assessment, teaching, or research in toxicologic pathology/toxicology, and inviting them to join the STP and attend our 41st Annual Symposium to be held in Austin, Texas, from June 18–23, 2022. The theme for the 2022 Annual Symposium is "Toxicologic Pathology of the Hematopoietic System" and promises to be another dynamic meeting with excellent scientific sessions, career development and continuing education courses, and many networking opportunities.

To help us reach scientists and students at your institution with a variety of backgrounds and research interests, we request you to kindly post our Annual Symposium (see below) in your departmental newsletter and/or continuing education section of your Website. Alternatively, please forward this information to the appropriate person or provide us with the contact information.

Please note that there are several different opportunities for students to apply for monetary awards through the generous Student Awards program. The deadline for most awards is March 30. See individual award details for nomination/application and selection processes. Registration fees are waived for active STP student members. Nonmember students who apply by April 1 for STP student membership ($25 annual dues) and are approved, can also register for free. In addition, nonmembers who apply for membership prior to July 1 and who are accepted will receive complimentary membership for the remainder of 2022. Please visit www.toxpath.org to apply for membership.

**Important Deadlines**
- Abstract Submission Deadline: March 30
- Student Awards Application Deadline: March 30
- Early Bird Registration Deadline: April 30

**Student Awards and Grants**
- The Daniel Morton and Laura Dill Morton Scholarship (Deadline: November 1, 2022)
- STP Young Investigator Awards
- STP Environmental Toxicologic Pathology SIG Student Research Award
- IATP/STP Charles Capen Trainee Award (Deadline: November 1, 2022)

**For the Web:**

**SOCIETY OF TOXICOLOGIC PATHOLOGY (STP) 41ST ANNUAL SYMPOSIUM**
**TOXICOLOGIC PATHOLOGY OF THE HEMATOPOIETIC SYSTEM**
**AUSTIN, TEXAS • JUNE 18-23, 2022**

The hematopoietic system embodies the convergence of anatomic and clinical pathology specialties and multidisciplinary approach to assessing disease mechanisms. The aim of the 2022 Society of Toxicologic Pathology Annual Symposium is to converge clinical and anatomic pathology aspects of the hematopoietic system and to expose attendees to a broad array of contemporary topics related to toxicologic pathology of the hematopoietic system. Please see the STP Meeting website for additional information and any updates regarding the ongoing pandemic.

Thank you very much.
Best regards,

STP Membership Committee
